Best part is - this strategy is **"set it and forget it".**

You can set it up once and reap the benefits forever. **It's a no-brainer!**

And don't worry! It's all 100% beginner proof!

Anyone can do this - even if the words "sales funnels, squeeze pages, autoresponders" or "landing page" scare the heck out of you;) **Ready to get started?**

t

⚠ WARNING

What if everything you've been told about **making money online** with affiliate marketing was ***dead wrong?***

And what if you didn't have to build an authority site, become an influencer, build landing pages or run expensive Facebook ads in order to make affiliate commissions?

Better... What if you could get away working less than 1-2 hours a week by using a cheap automated reliable commission-generating system to generate high-quality leads and sales on autopilot?

MY NAME IS CLAUDE BUZIZI...

I help people build wildly profitable email lists in record time.

And I'm about to help you see what you need to do in order to build a thriving affiliate marketing business without being forced to leave work or give up on tons of free time with your family...and I'll also share the exact blueprint I use to pocket $100's of dollars in daily commissions from affiliate networks like Clickbank, jvzoo, & warrior plus.

It doesn't require any special skills, and it doesn't involve running complicated ads...

In Fact...

What I'm about to show you is probably the easiest, fastest, and most beginner-friendly way of getting an online business up & running with virtual zero struggle today.

And I'm willing to bet you didn't even know it existed!

Being in the affiliate marketing business is not that hard now with the internet at your disposal. It is much easier now compared to the days when people have to make use of telephones and other mediums of information just to get the latest updates on the way their program is coming along.

So with the technology at hand, and assuming that the affiliate is working from home, a day in his or her life would sound something like this...

Upon waking up and after having breakfast, the computer is turned on to check out new developments in the network. As far as the marketer is concerned there might be new things to update and statistics to keep on.

The site design has to be revised.

The marketer knows that a well-designed site can increase sign-ups from visitors. It can also help in the affiliate's conversion rates.

HOW AFFILIATE MARKETING WORKS (IN THEORY)

1. Someone ELSE creates the product & sales process...

2. You just send visitors/traffic to their site...

3. You keep a portion of the sale (usually 30% - 70%)

Done Right: You can **POTENTIALLY** Make Money Your 1st Week!

HOW IT'S "SUPPOSED" TO WORK

STEP 1: Send traffic to the product

STEP 2: People buy (maybe around 10%)

STEP 3: I collect my **HUGE COMMISSIONS!**

How I Thought It Worked - When First Started!

HOW IT ACTUALLY WORKED

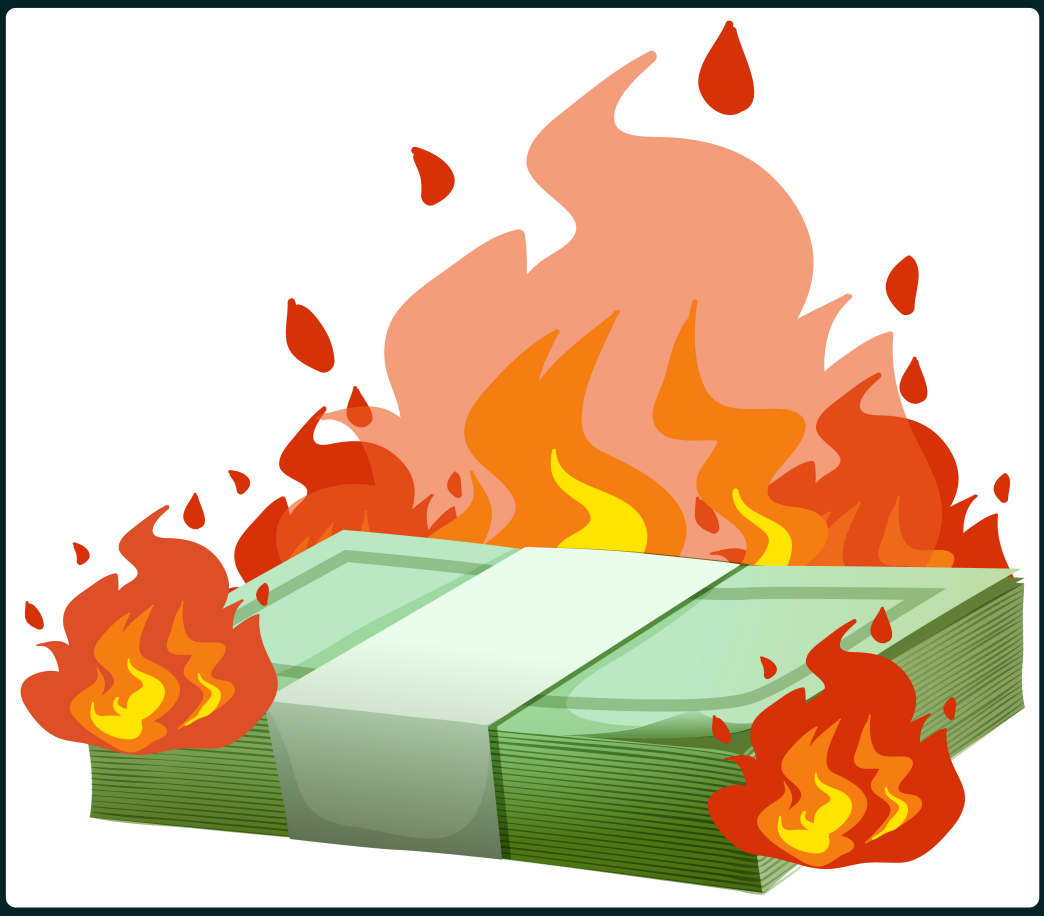

#1: I spent $200 for 100 website visitors ($2/Visitor) - the ad spend.

#2: Of the 100 website visitors - 1 person only bought @ $148/sale (my commission)

#3: I ended up collecting my $148 commission, which means that I lost $52 since the revenue you make = **Profit - Ad Spend.**

SO - I TRIED AGAIN WITH A PRODUCT THAT PAID $100 PER SALE

I KEPT TRYING... AND LOST THOUSANDS OF DOLLARS

I was so horrible at making money online when I first got started that I actually ended up filing for bankruptcy. I kept trying and I kept losing money and I was frustrated, I was just about to give up when a successful friend of mine told me about the #1 secret of **$100K AFFILIATE MARKETING!**

$100K AFFILIATES #1 SECRET

FACT: Making BIG MONEY as an affiliate marketer comes down to ONE THING...

Do you have an **AUDIENCE** interested in a specific NICHE... and can you promote to that audience, both AUTOMATICALLY & AT WILL!!

People will usually NOT purchase the 1st time they see an offer! (99%)

So NEVER NEVER NEVER buy traffic to an opt-in page FIRST & capture their email address! That way you can follow up with people if they don't buy, and you can also offer them OTHER affiliate products they may be interested in!

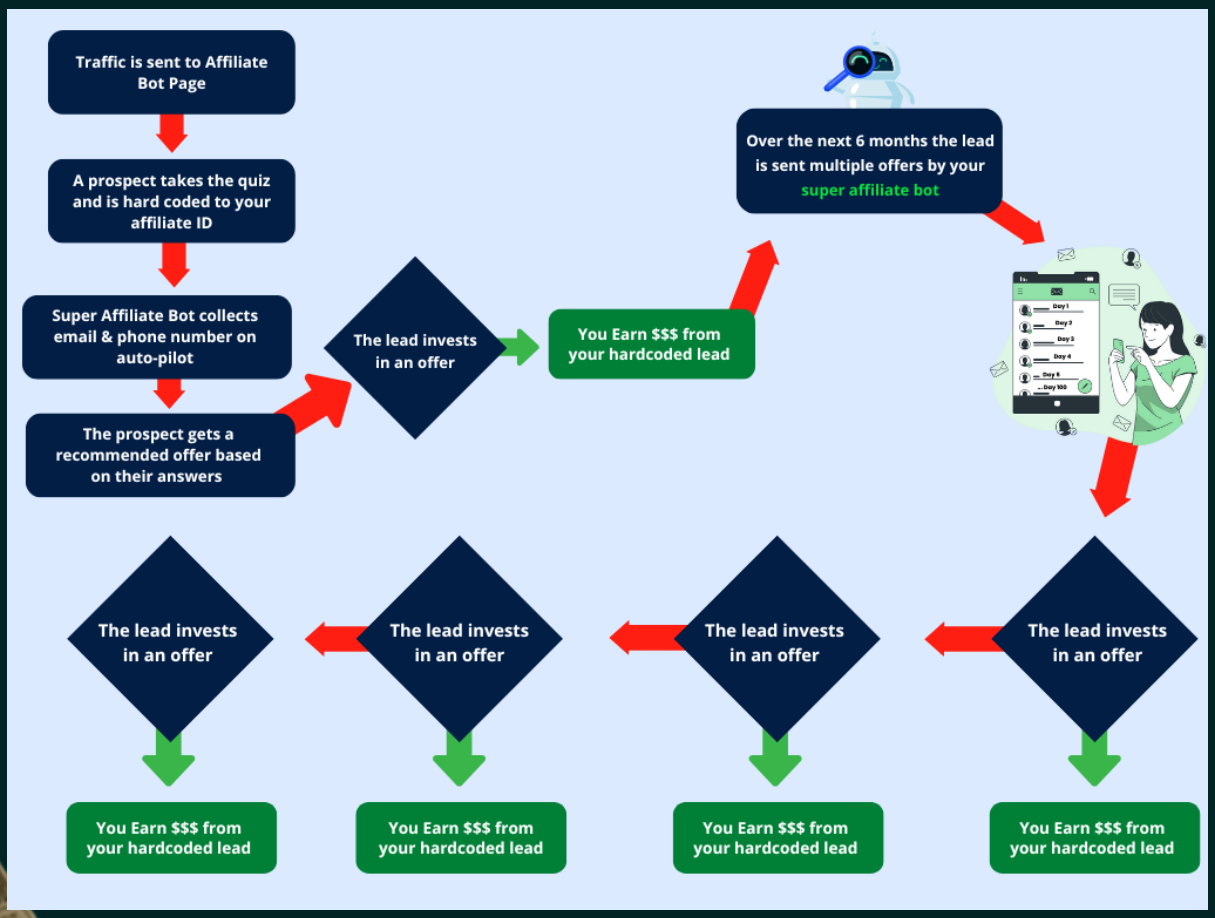

WHAT HAPPENS NEXT...

The fortune is in the **FOLLOW-UP!**

Once you've captured someone's email address, set up an AUTO-RESPONDER to AUTOMATICALLY send follow up messages offering different affiliate products (in the same niche)!

That way, you can make money while you sleep!!!!

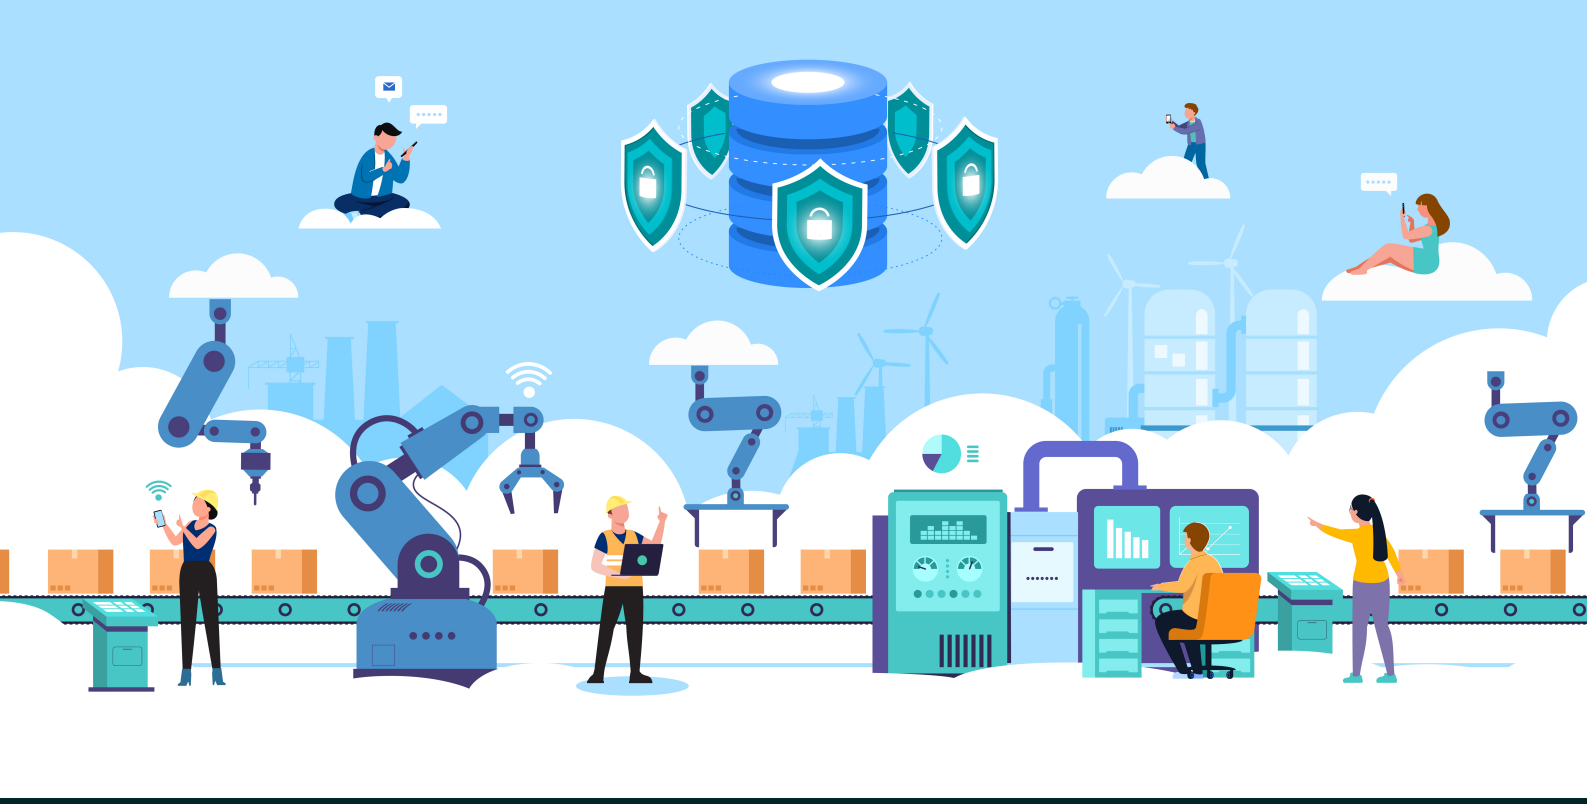

WRONG WAY...

RIGHT WAY..

And if you are not using an automated

THE 7-STEP BLUEPRINT

STEP #1:

Affiliate Network Setup

WHAT AFFILIATE NETWORKS TO WORK WITH?

Affiliate game is all about status.

To get into the best affiliate programs you first need to prove you can sell. That's hard to do if you don't have a list yet. Let alone a buyer list.

That's why I recommend getting your feet wet with the following affiliate networks first.

BEST FREE PLACES TO FIND PRODUCTS TO SEND PEOPLE TO!!

JVZOO

- "Internet Marketing" Products
- Pays to your PayPal
- Can earn instant payouts once you've proven yourself
- Lots of "software-type" products for internet entrepreneurs.
- Must wait for approval

Warrior+ Plus

- Mostly "make money" products
- Great for "low-ticket" products that have high conversions.
- Pays to your PayPal
- Can earn instant payouts once you prove yourself
- Must wait for approval

ClickBank

- Has been around the longest
- More products in more niches (ex: weight loss & pers dev)
- Pays via Check or Direct Deposit
- Some products with bigger dollar payouts (over $400/sale)
- Usually INSTANT approval

PRO TIP #1

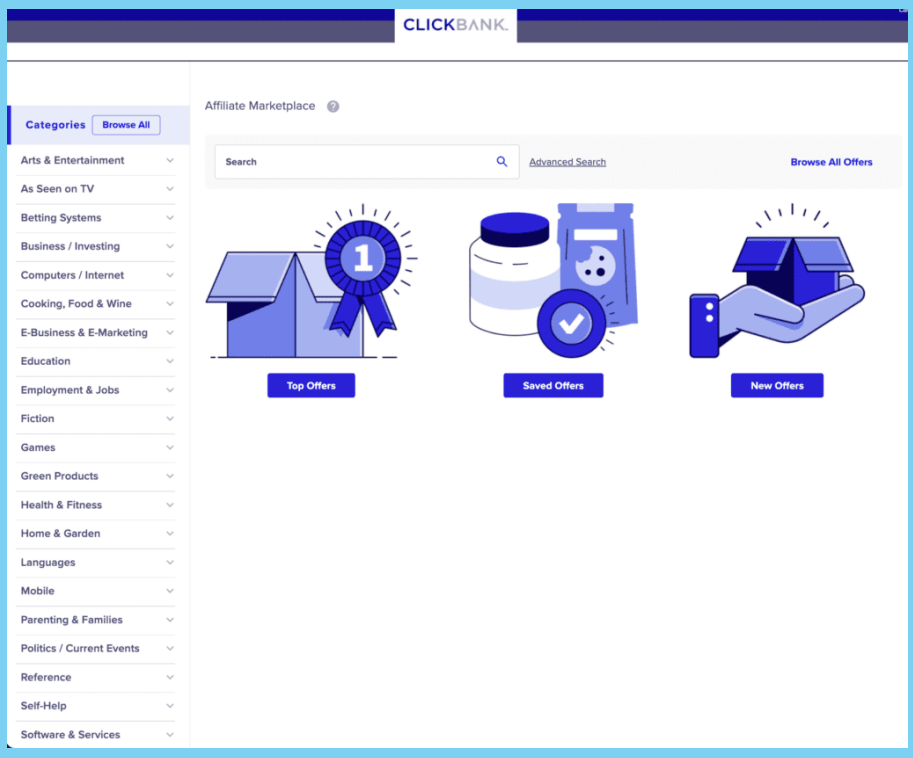

Start with just ONE Affiliate Network

More does NOT = Better

ClickBank

ClickBank is a platform that brings vendors and affiliates together. You get access to thousands of offers to promote at 50%-75% commission the moment you sign up and usually gives INSTANT approval & has more products in more niches.

Inside ClickBank Market Place

MAKE MONEY ONLINE

HEALTH & FITNESS

PERSONAL DEVELOPMENT

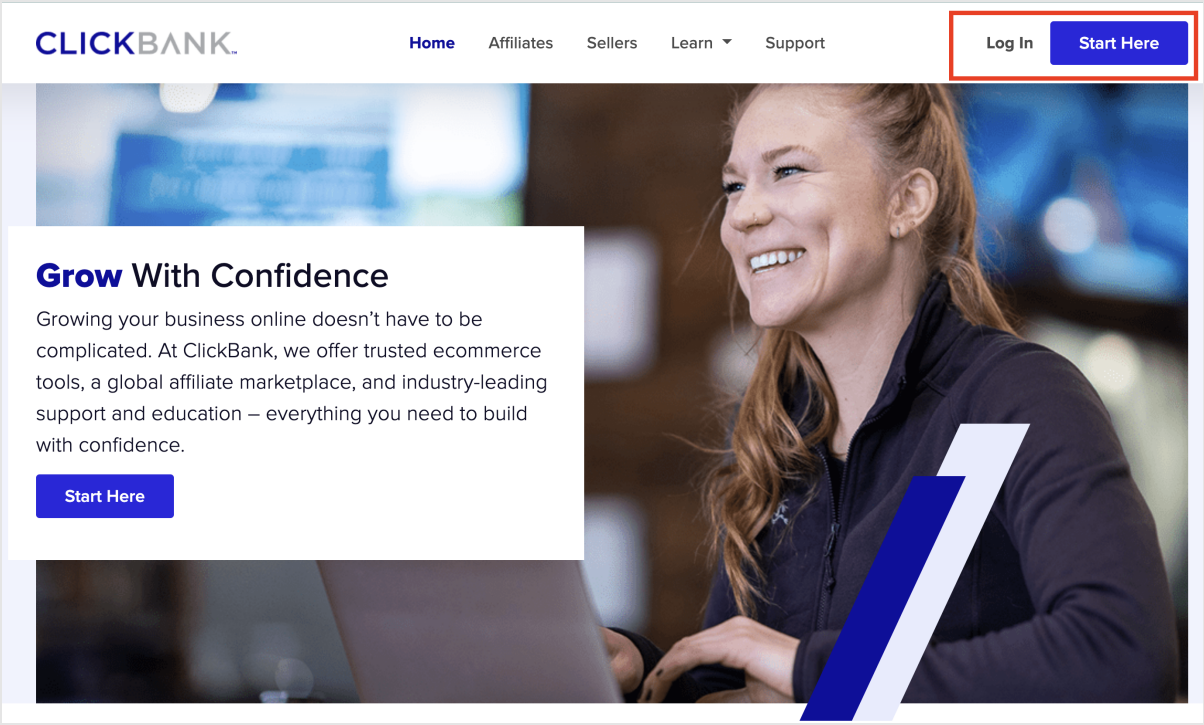

PRO TIP #2

Start Your Affiliate Marketing Business In A Niche With **MASS APPEAL** And You'll More Easily Create Multiple Streams Of Income Because You'll Have Countless Products To Offer People!

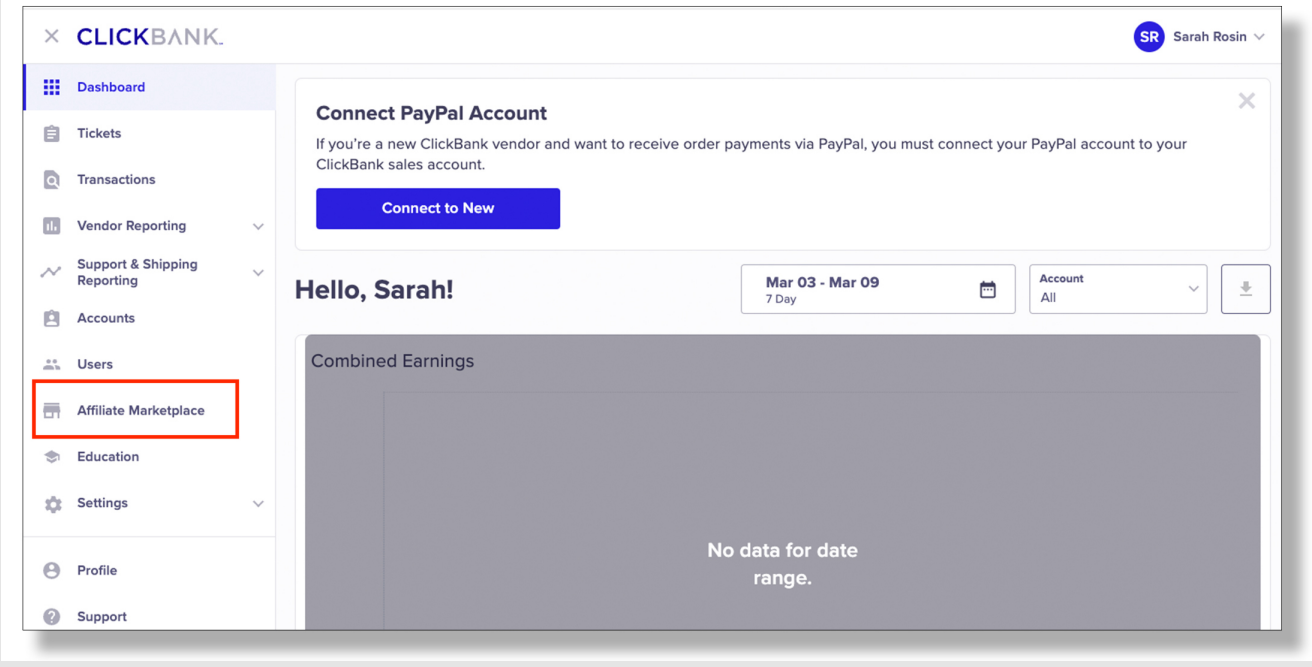

How To Find Products To Promote On ClickBank?

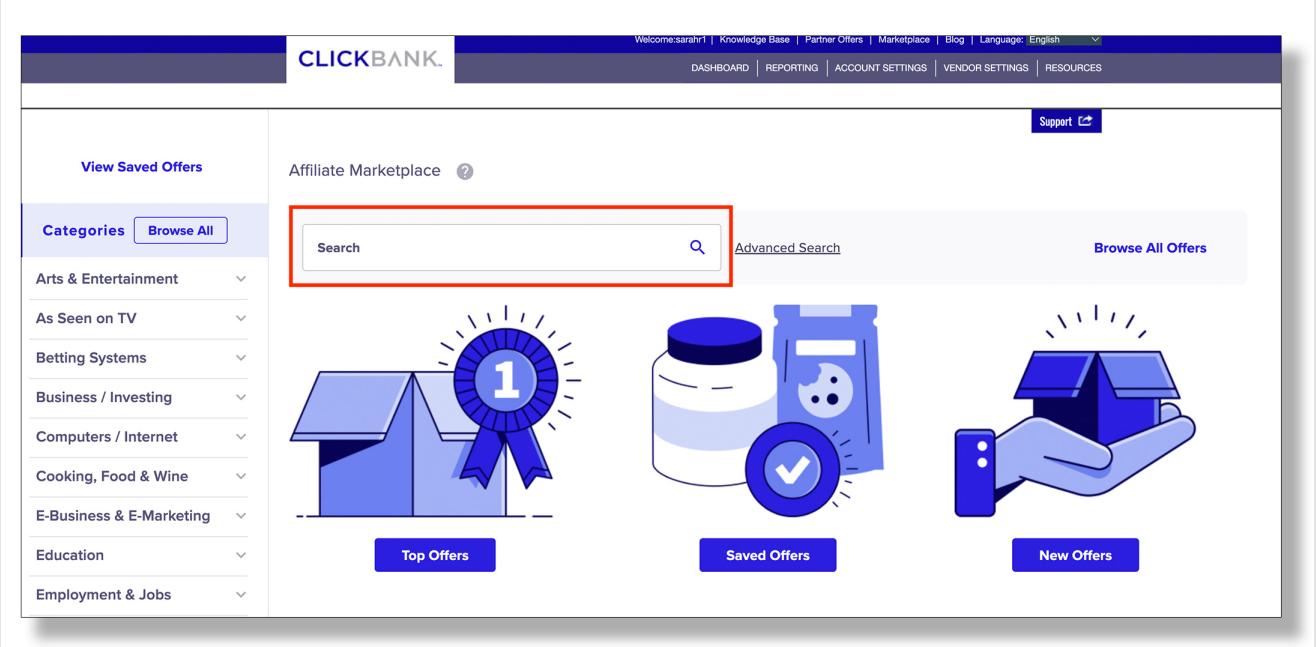

Step #1: Log in or create your ClickBank account (Free - 4 Minutes)

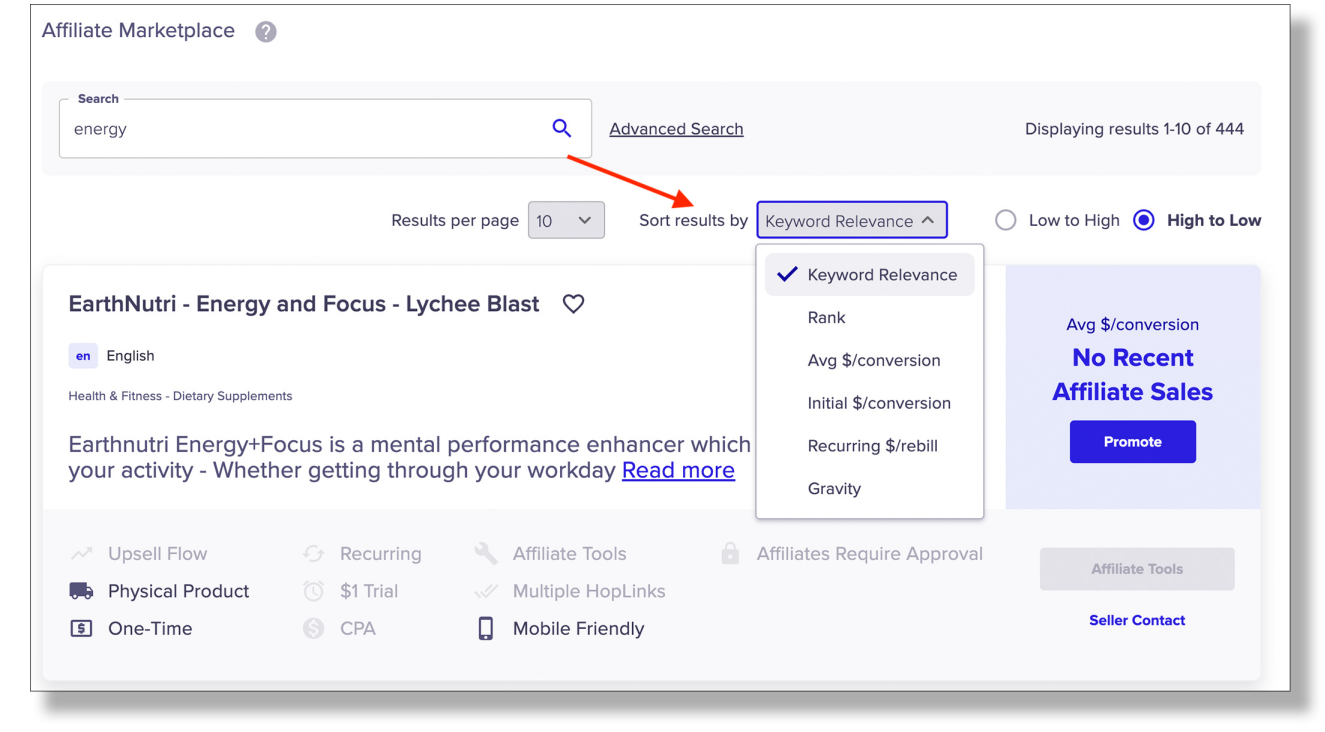

Step #2: Click the Affiliate Marketplace

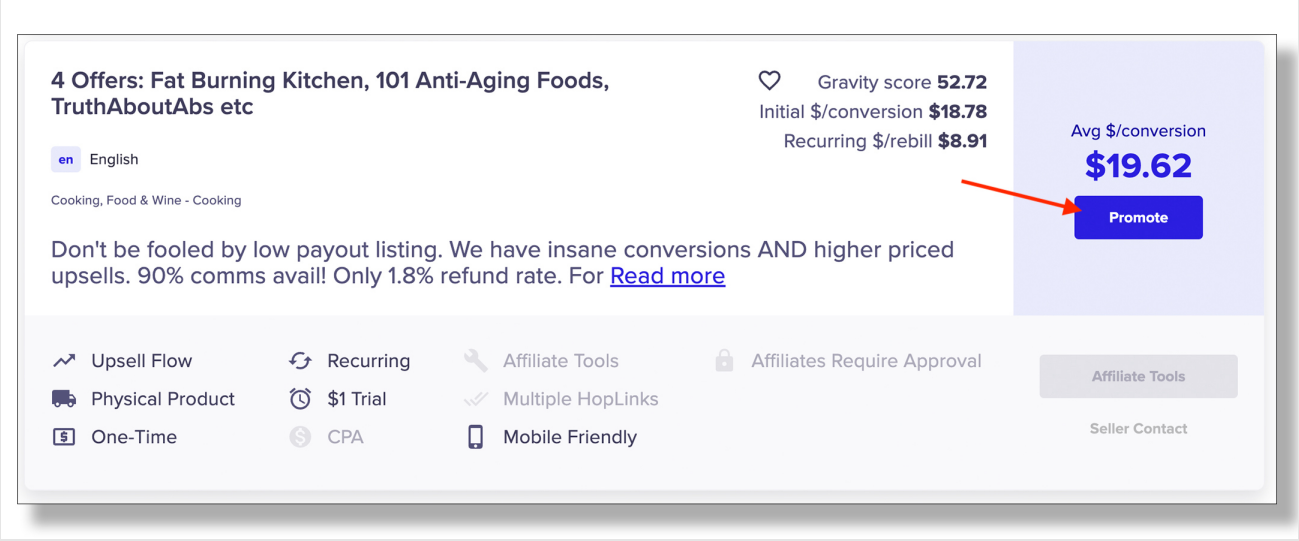

Step #3: Find a BUNCH of different products to sell in the same niche (Free - 10 Minutes)

Step #4: Review and refine your search results by dropdown menu. Use the adjacent radial buttons to sort the results from high to low or from low to high

Step #5: Promote a product, contact the seller, or find out more about the listing.

5 Reasons Most Affiliates Fail

- There's a 99% chance people won't buy the first time they see an offer/product

- If you send traffic directly to the thing you're trying to sell, you only have ONE chance to sell them (99% failure rate)

- It takes someone seeing an offer up to 15-30 times (or more) online before they'll buy.

- You must have a WAY to capture the email address of the traffic you send so you can **BUILD YOUR LIST (your most valuable asset)**

- You must be able to follow up with your leads automatically (while you sleep) as well as at will.

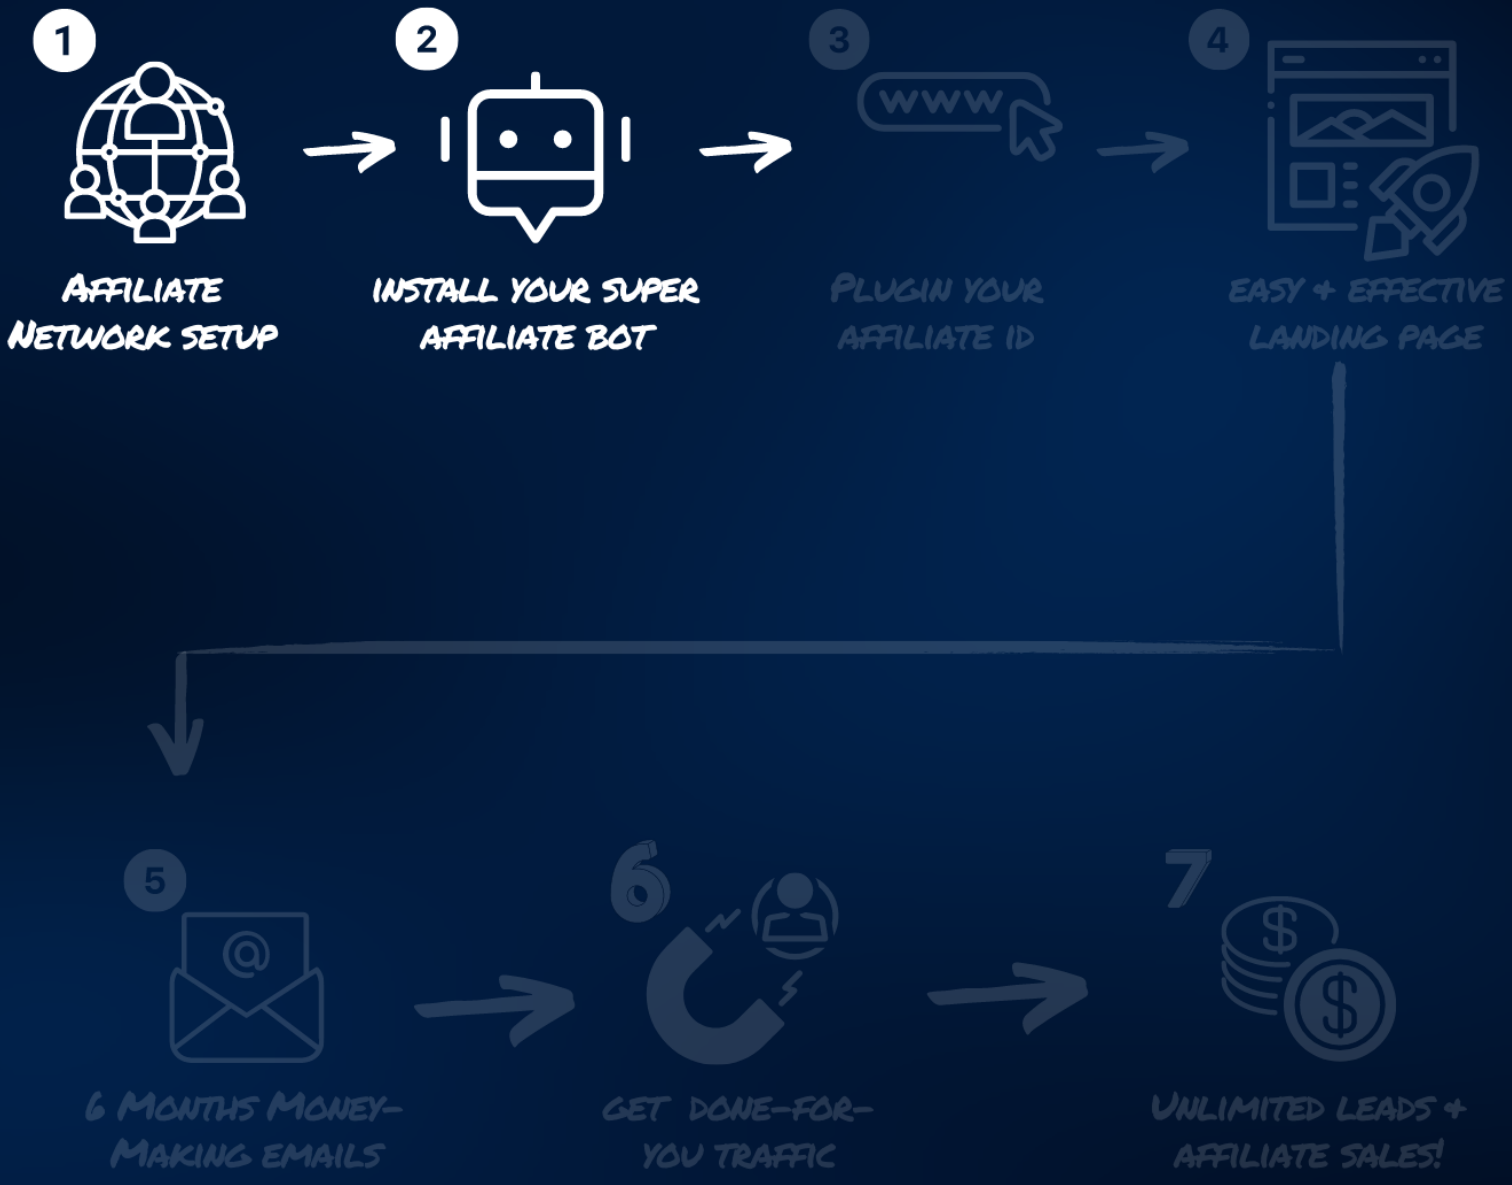

NO MORE OF THIS...

It's Now Time To

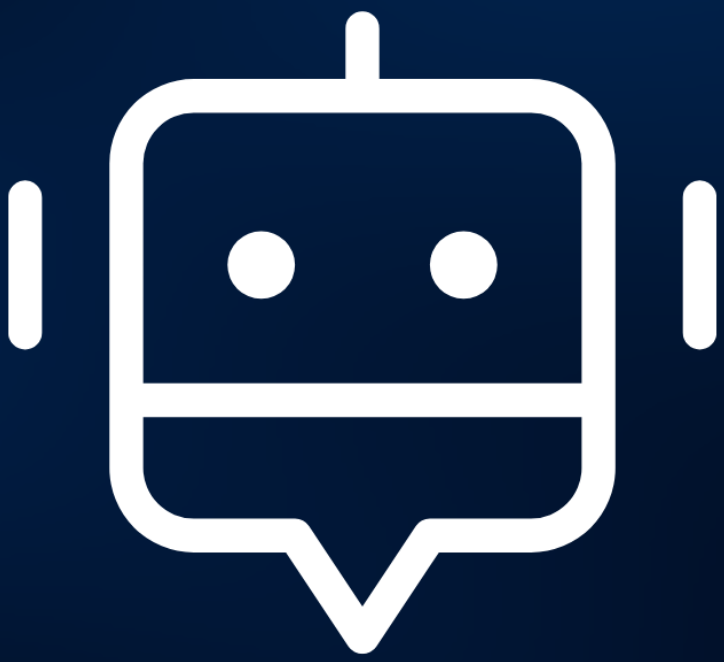

LEVEL UP!!!

THE 7-STEP BLUEPRINT

STEP #2:

Install Your Super Affiliate Bot

Find Your "Watering Hole"

The Solo Ads world is an unimaginably

GIGANTIC PLACE...

Most of it is a desolate wasteland

in terms of growing your business

your key to success is finding the

"watering wholes' where your

customers hang out everyday

MONETIZE WITH SOLO ADS

In this part of my Affiliate Automation Academy Blueprint, I show you how to buy solo ads for any niche and on any budget. A solo ad is when you rent other people's email lists for a fixed fee for one ad. Hence the name – "solo" ad.

- Solo ads offer marketers a unique advantage over other traffic sources in that they're affiliate-friendly and squeeze-page-friendly.
- No one is going to penalize you for promoting affiliate products (or your own products that make claims advertising networks don't approve).
- Regardless of your budget, your niche, or your skill level, solo ads give you access to hundreds of thousands of highly-targeted email leads in seconds.
- This is the ideal shortcut for someone without a list to create one quickly. Solo ads deliver primarily email traffic, which is another huge advantage.
- Email leads are likely to purchase products. As compared to organic search, referrals, and paid search, email advertising dominates almost all other traffic sources.
- Social media trails far behind. It has fewer customers and a 20th of email's lifetime value in terms of paying customers.

Therefore, I will continue to use email marketing and solo ads for my primary marketing media in the next five years.

GET BETTER CUSTOMERS

The number of leads generated by email dwarfs those from social media. No matter what the Social Media mavericks do, email will not disappear. We share documents via email.

A valid email address is needed to create an Apple ID and an iCloud password to access our photos. An email address is required to start a Twitter or Facebook account.

No matter how you spin it, people will continue to store and share important information with one another using email. This means not only do you get better customers, but you also get more of them!

By using email, you can reach more leads, more quickly and more cost-effectively than by using social media marketing, regardless of whether you're using free or paid campaigns.

SOLO ADS ARE MUCH SIMPLER

Another reason internet marketing newbies love solo ads is their simplicity.

You need a nuclear physics MBA to run Native Ads or Facebook Ads successfully without wasting 90 percent of your ad budget.

There are about 74 types of ad placements you need to know (73 of them are useless as a tit on a bull), including pixels, meta code, lookalike audiences, demographic targeting, and mobile vs desktop.

Solo ads are much simpler.

You'll need to negotiate price, set up tracking, write your swipe, submit the order, and watch your list grow.

In contrast with other methods, where driving traffic is the sole purpose of your day-to-day activities, solo ads are almost effortless to manage. It's as simple as pressing a button. Solo ads allow you to focus on your business, not on it's operations. You can receive leads even while you sleep.

Having Said That, Solo Ads Aren't A Magic Bullet.

This gives you the opportunity to operate with virtually zero competition. However, it's also a downside because there are virtually no reliable authorities that can guide you in finding legitimate solo ads.

It creates an opportunity for you to operate with virtually zero competition.

But it's also a downside, because there's virtually no reliable authorities that could offer advice on the legitimate places to buy solo ads. It creates an issue for beginners who would like to buy solo ads without being scammed for whatever little money they have. I'm going to share specific solo ad sources you can use, other sources to stay away from and all the little nuances of buying solo ads profitably.

I'll also warn you about you probably losing money on your first solo ad, because your funnel is going to suck.

Where To Buy High-Quality Solo Ads For Any Niche?

Below are a few high-quality solo ad sources you can trust. This list was compiled after years of testing.

Only the best sources were retained in terms of price-quality ratios and trustworthiness.

There's no guarantee that this list will keep you safe from scammers. Every now and then, even the most ardent media buyers are conned. However, it dramatically reduces your risk.

You're at risk of making a costly mistake

if you ignore my advice

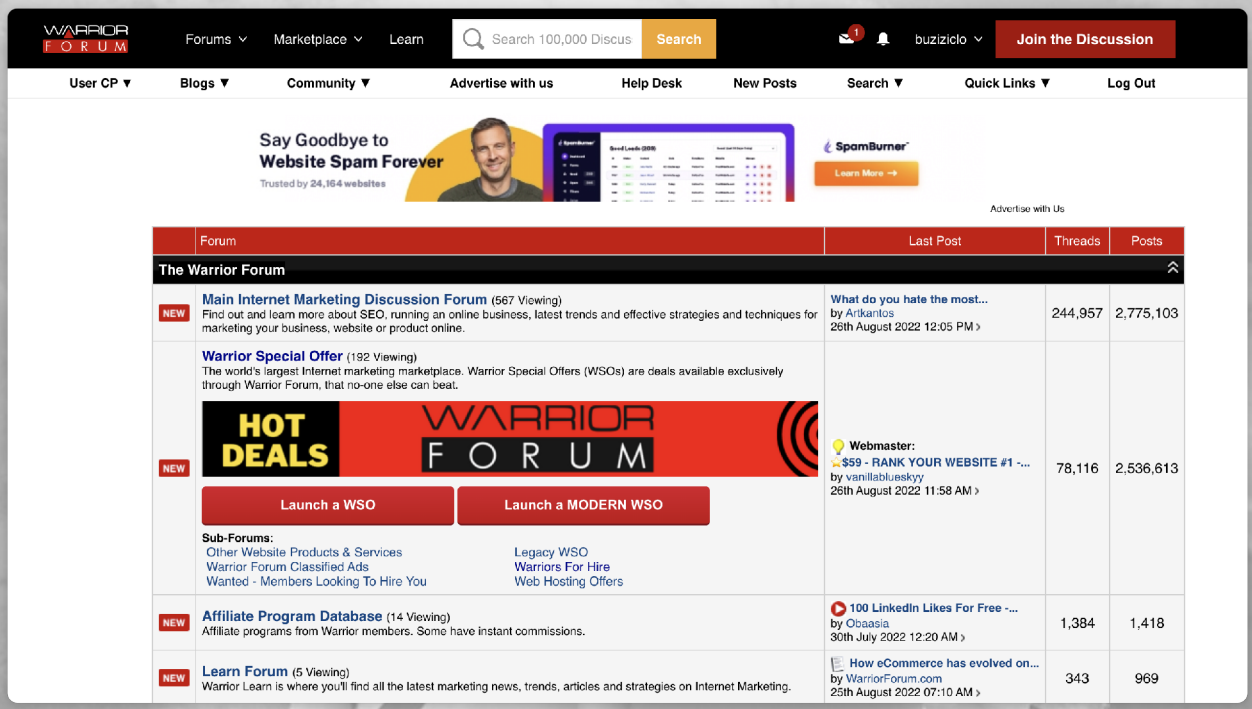

Although I briefly mention a few, this solo ad shortlist doesn't contain many solo ad marketplaces. I advise you to stay away from them like the plague. The same applies to Solo Ads Facebook groups. They are even worse than that. They're full of spammers who resell clicks for a profit or send junk via domain redirects. You are at risk of making a costly mistake if you ignore my advice.

1) Warrior Forum

(Internet marketing, biz opp, self-help, forex, dating, weight loss)

Great place to buy solo ads for beginners

Warrior Forum is a powerful solo ad vendor that can help you get your message in front of a large, targeted audience quickly and easily. Their service is easy to use and affordable, making it a great option for anyone looking to reach a large number of potential customers.

You can go as low as 50 clicks or as high as several thousand clicks per day. You get to choose from dozens of sellers who are willing to cut each other's throats for your money.

WHY THE FIERCE COMPETITION?

It is a relatively small marketplace, and many sellers don't have marketing skills. I would describe it as the mentality of the forum marketplace - the customer is always right. In addition, every action they take is visible to all forum members.

The environment is very transparent. Any transparent setting benefits the customer by offering better service and lower prices. However, there are many options to choose from. There are a lot of sellers who look alike, make similar claims, and charge similar prices. The process is similar to buying strawberries at the market.

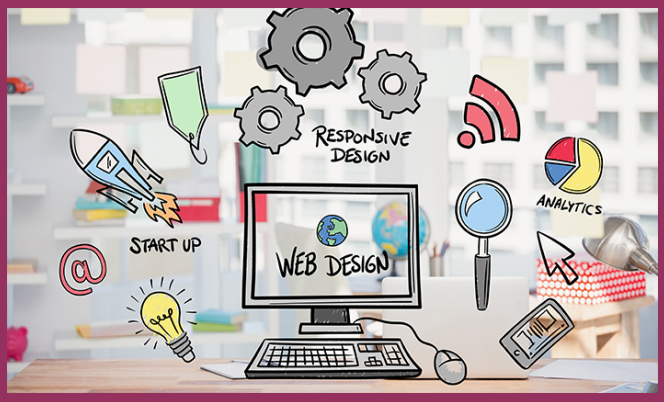

Almost nothing distinguishes the sellers other than their attitude and appearance.

Their reputation is more important to them than money, so they won't dare mess with you. If things go south, they'll step up to make things right almost without question. To keep you happy, some will even offer to send you free traffic.

BEST PLACE FOR BEGINNERS

The Warrior Forum is one of the best places to buy ads for beginners. The main reason is that you can get a lot of exposure for your product or service without spending a lot of money. You can also get some great feedback from other members of the forum. Another benefit is that you can learn a lot about online marketing from the other members.

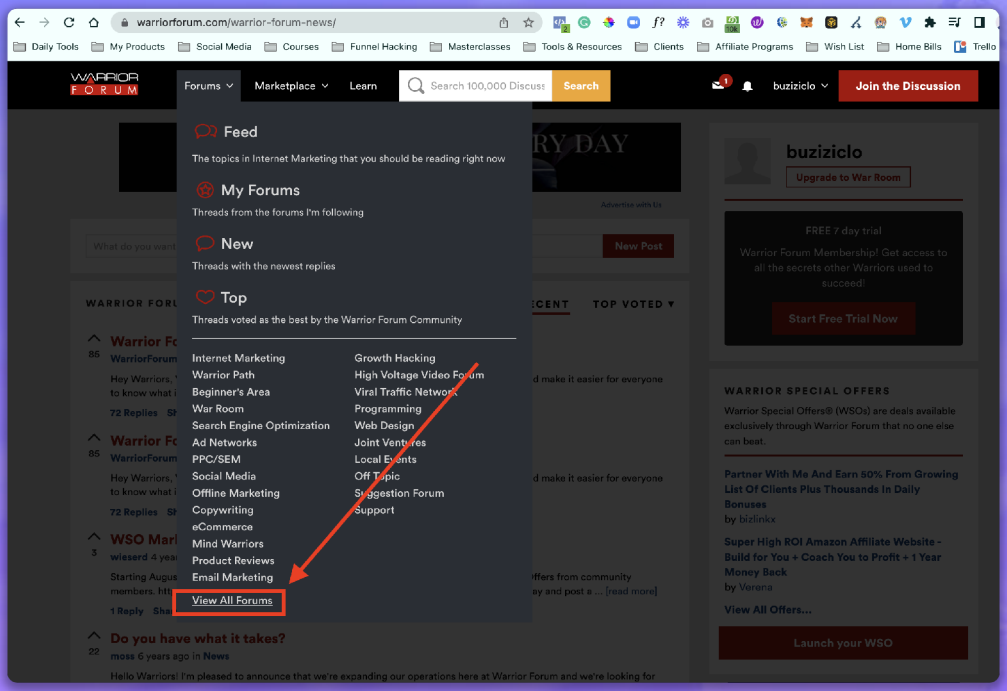

It is packed with features and advantages that make it the perfect choice for those new to online advertising.

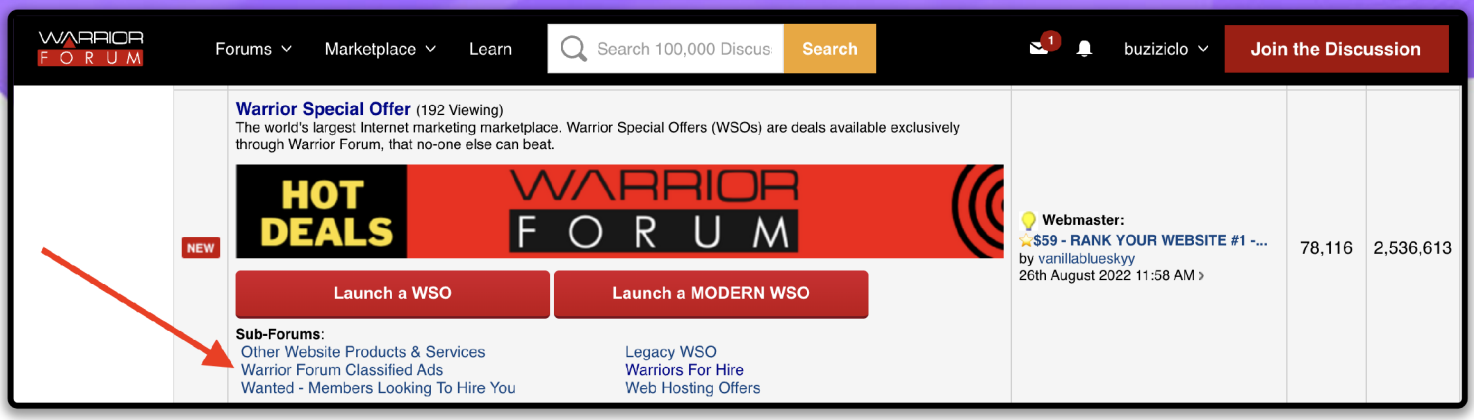

The benefits include access to a huge community of experienced online marketers, a wide range of ad types to choose from, and an easy-to-use interface. These factors all combine to make the Warrior Forum the perfect place to start your online advertising journey.

How to buy solo ads on the warrior forum?

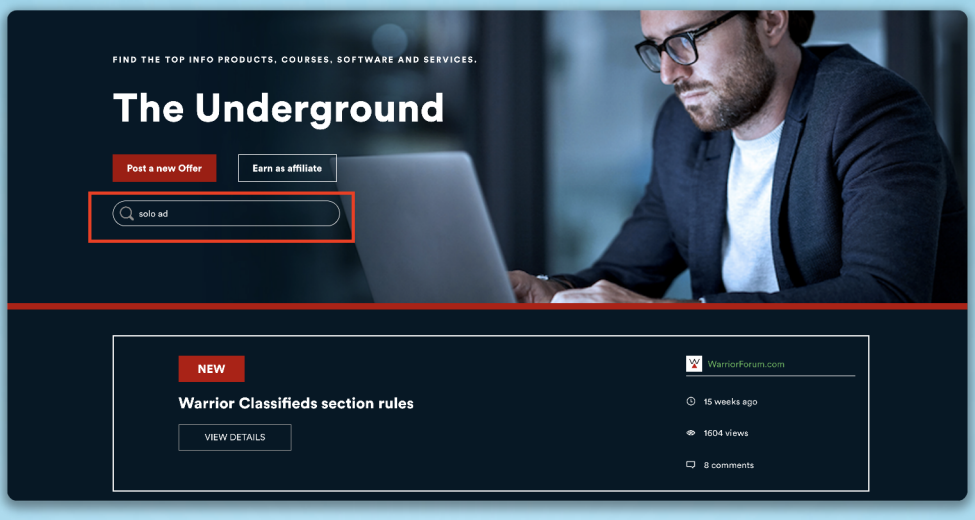

1. Click on the Forums panel and View All Forums:

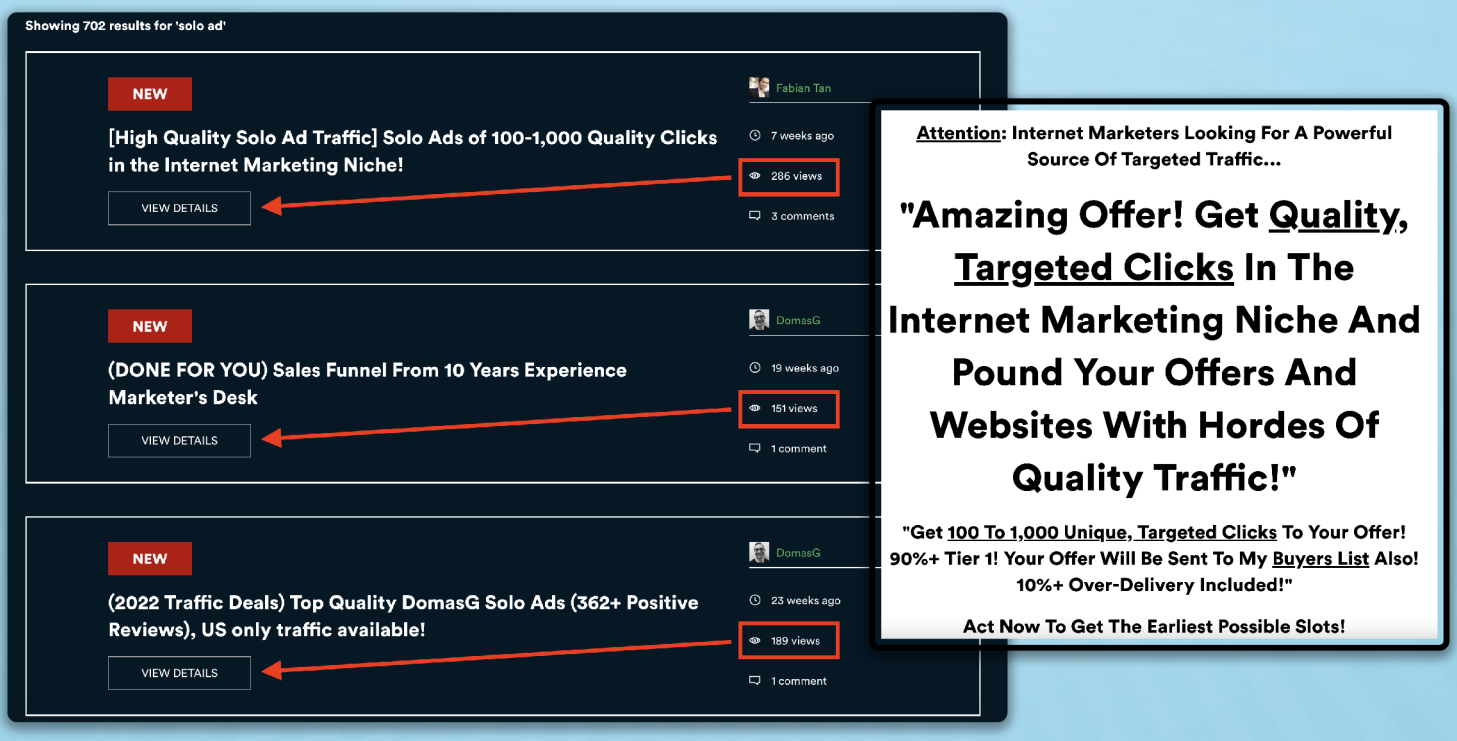

2. Go to classifieds

3. search for "solo ad"

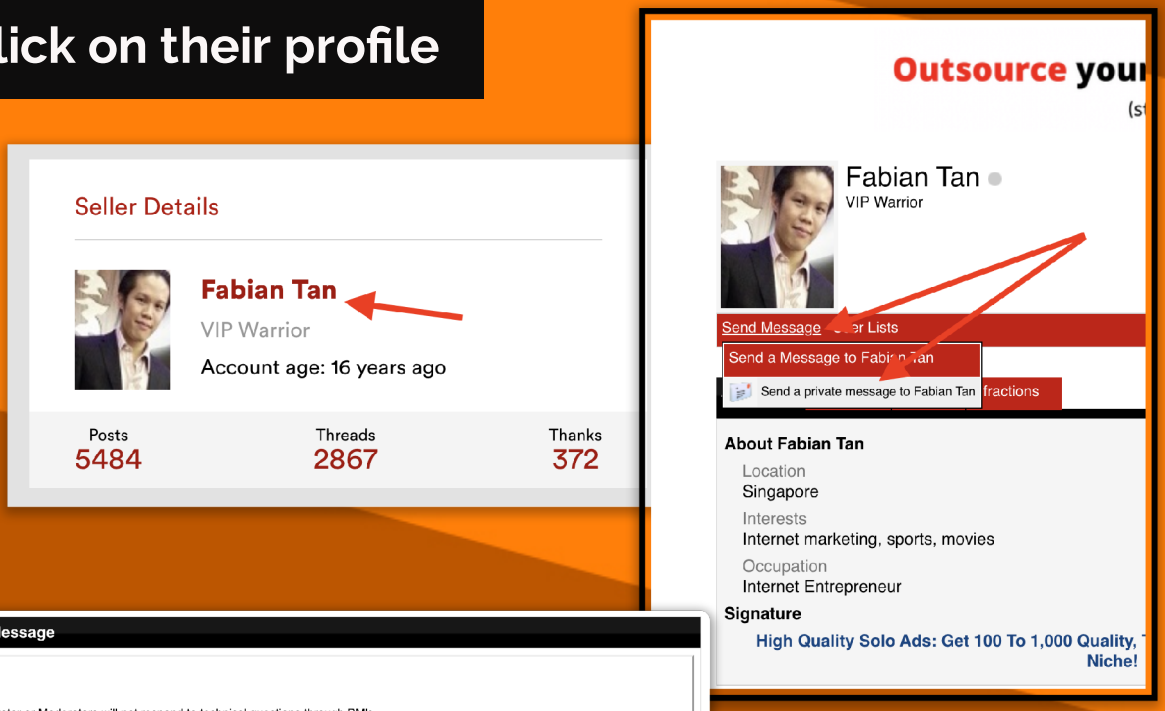

4. Reach out to the solo ad providers with most thread views and comments first.

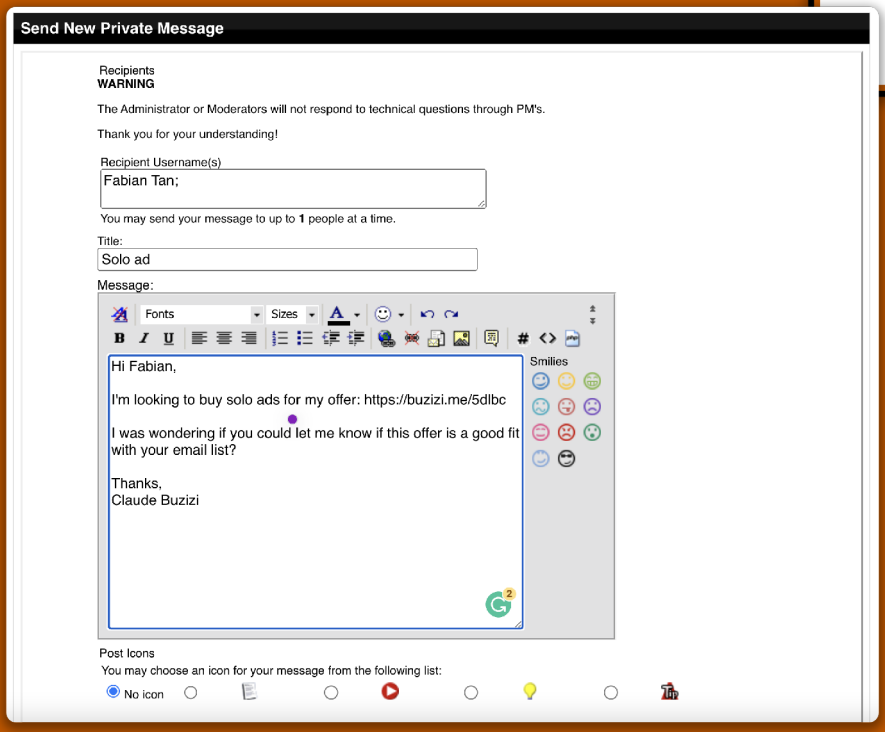

The fact they've got lots going on in their threads means they've been selling for a long time. You can't do that on the warrior forum unless you got good traffic

If you need to talk to the vendor before ordering, send the vendor a private message

Click on their profile

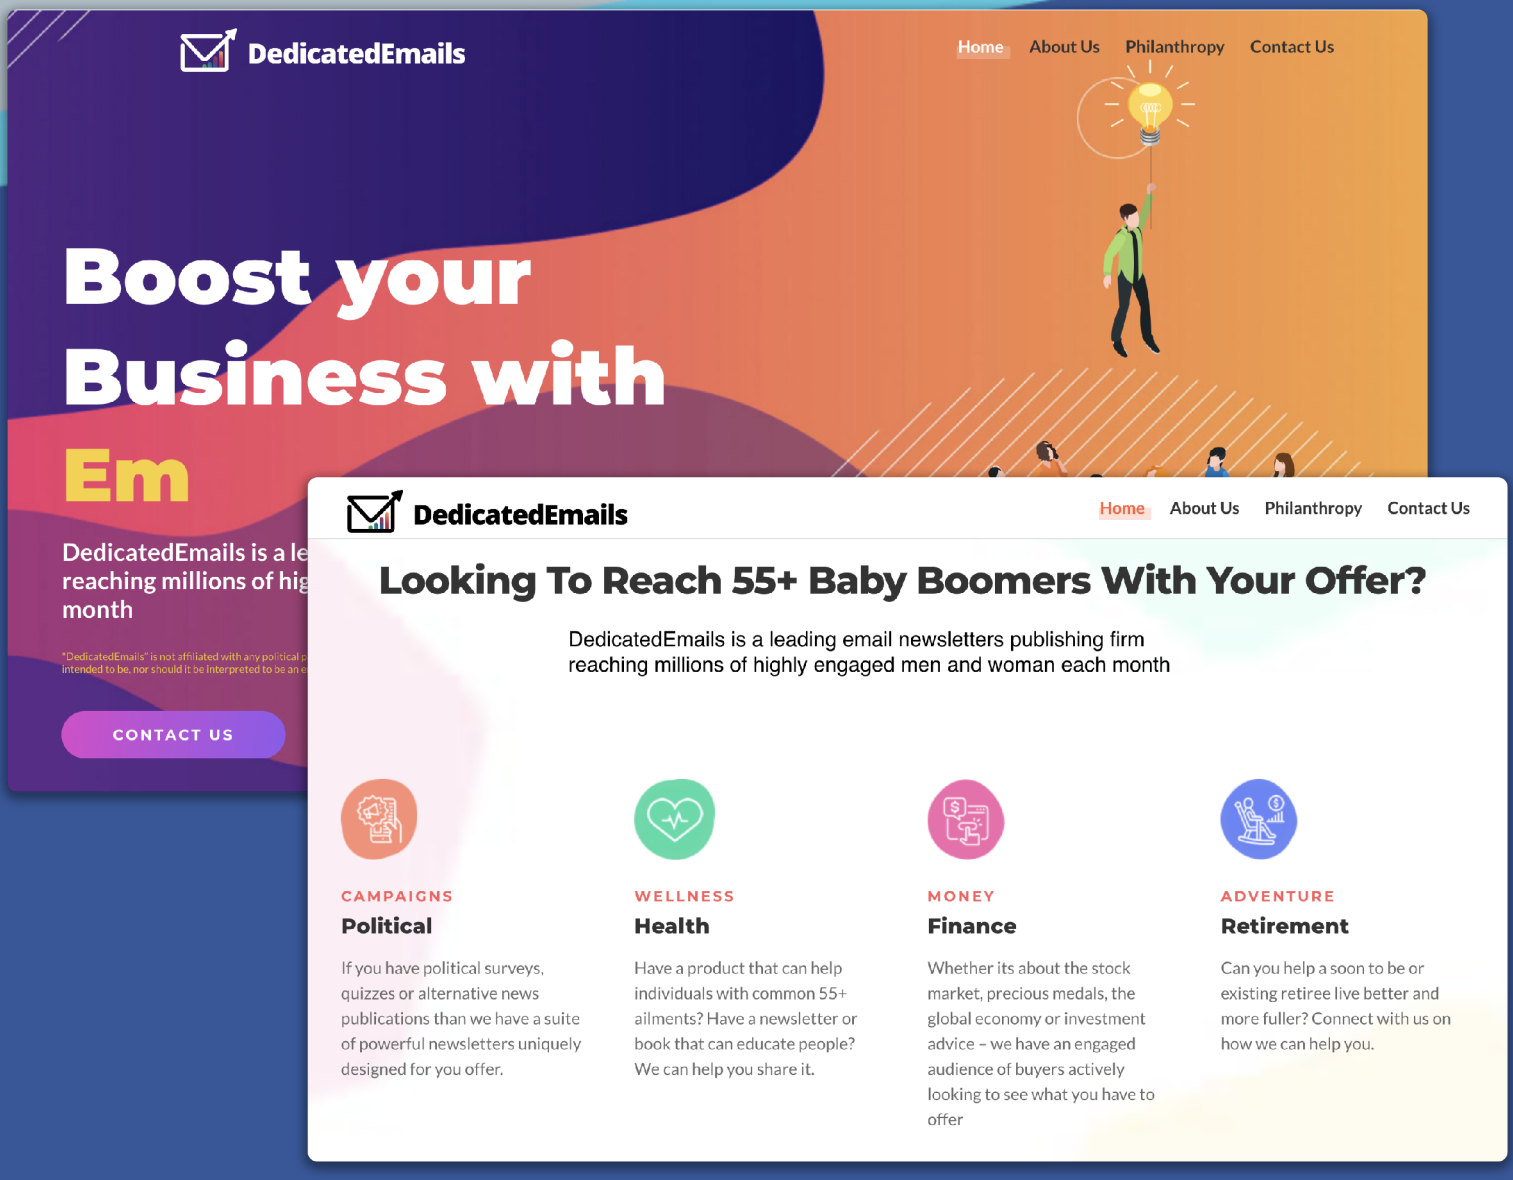

Repeat the process for each provider you're considering to buy from

Keep in mind that Warrior Forum is not associated with any of the solo ad providers on the forum. In the event that you run into trouble, you can post a complaint on their thread and the moderators may intervene to resolve the matter.

5) Traffic For Me (T4ME)

100% real clicks from **English Speaking** countries. No B.S. Guaranteed!

Business opportunity, health, survival, personal development. Unlike dedicated emails, Traffic For Me **brokers traffic** from other people.

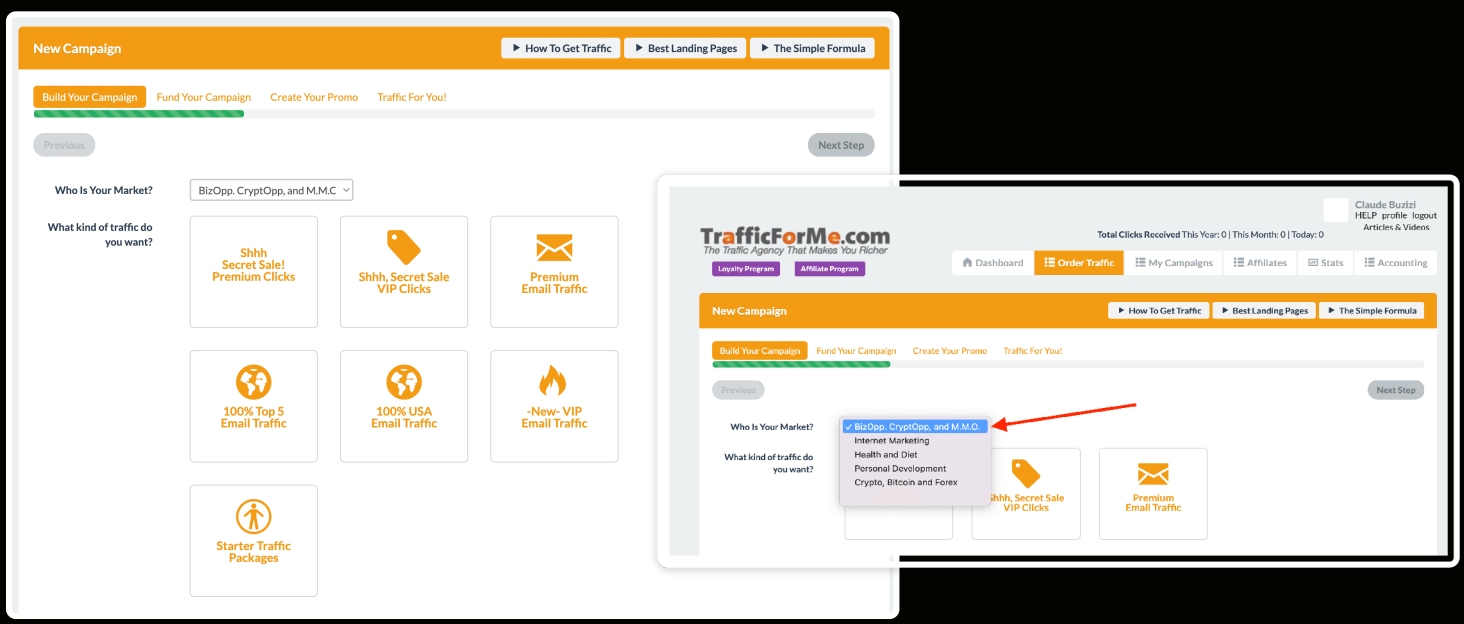

The majority of traffic brokers in the solo ad niche sell traffic you can easily get yourself at a markup. Most of that traffic, of course, converts like crap - which is to say, doesn't convert at all. The only solo ad broker I trust is Traffic For Me. Unlike other solo ad brokers, they offer access to off-market lists. Publishers they're connected to sell traffic exclusively through T4M solo ad agencies. Self-serve interfaces are available through T4M. It is similar to a vending machine for traffic. (Unless you want to) you don't have to talk to anyone. Simply place your order on the website.

How to order traffic from Traffic For Me

1. First, register a free account here

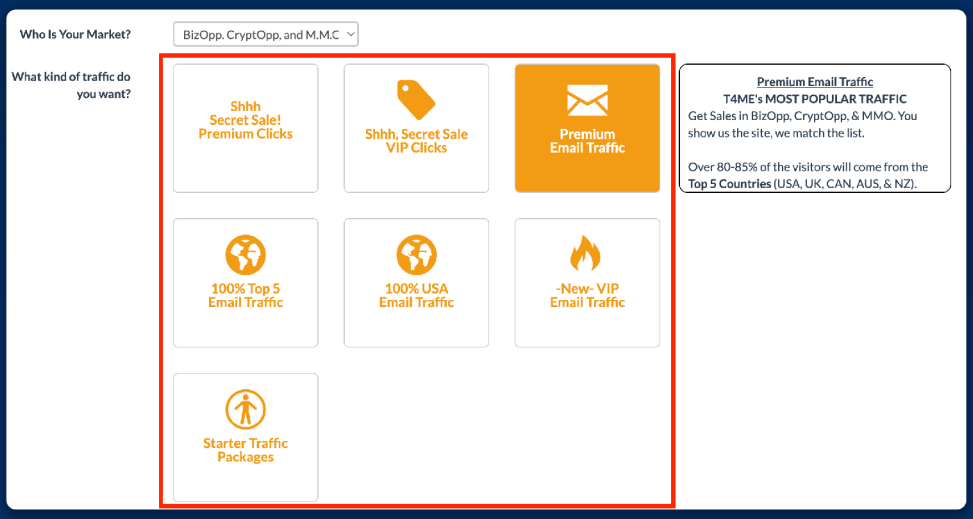

2. Choose your target market

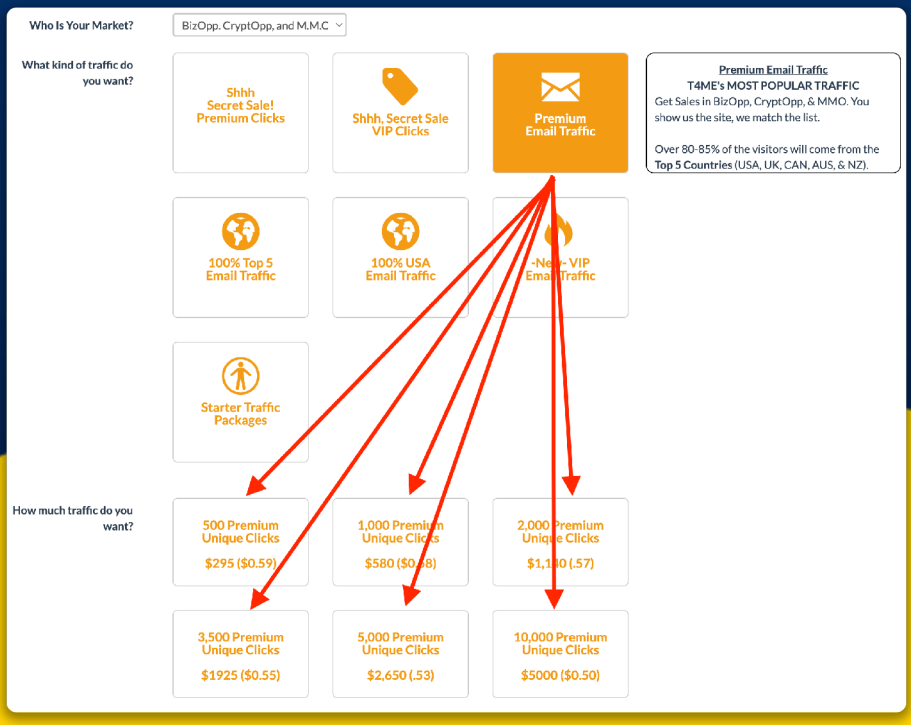

3. Choose traffic quality options

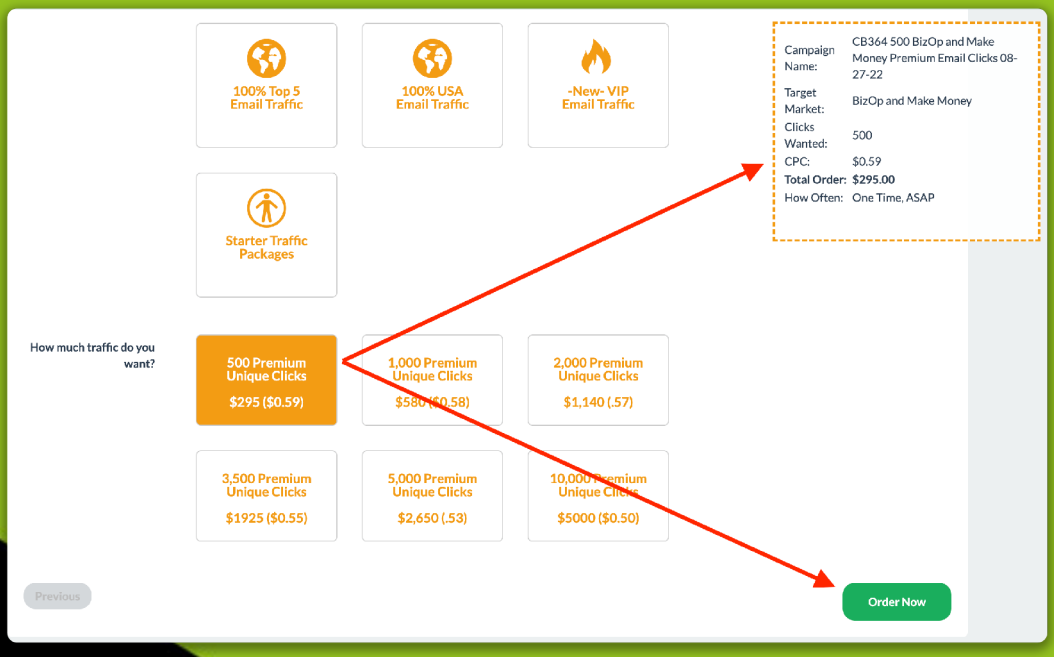

Depending on the target market you chose, you may be presented with traffic quality options. For example, T4M offers 7 traffic quality levels for business opportunity solo ads: secret sale premium clicks, secret sale VIP clicks, premium email, 100% top 5 countries (USA, UK, CA, Au, NZ), 100% USA email traffic, New VIP email traffic, starter traffic packages

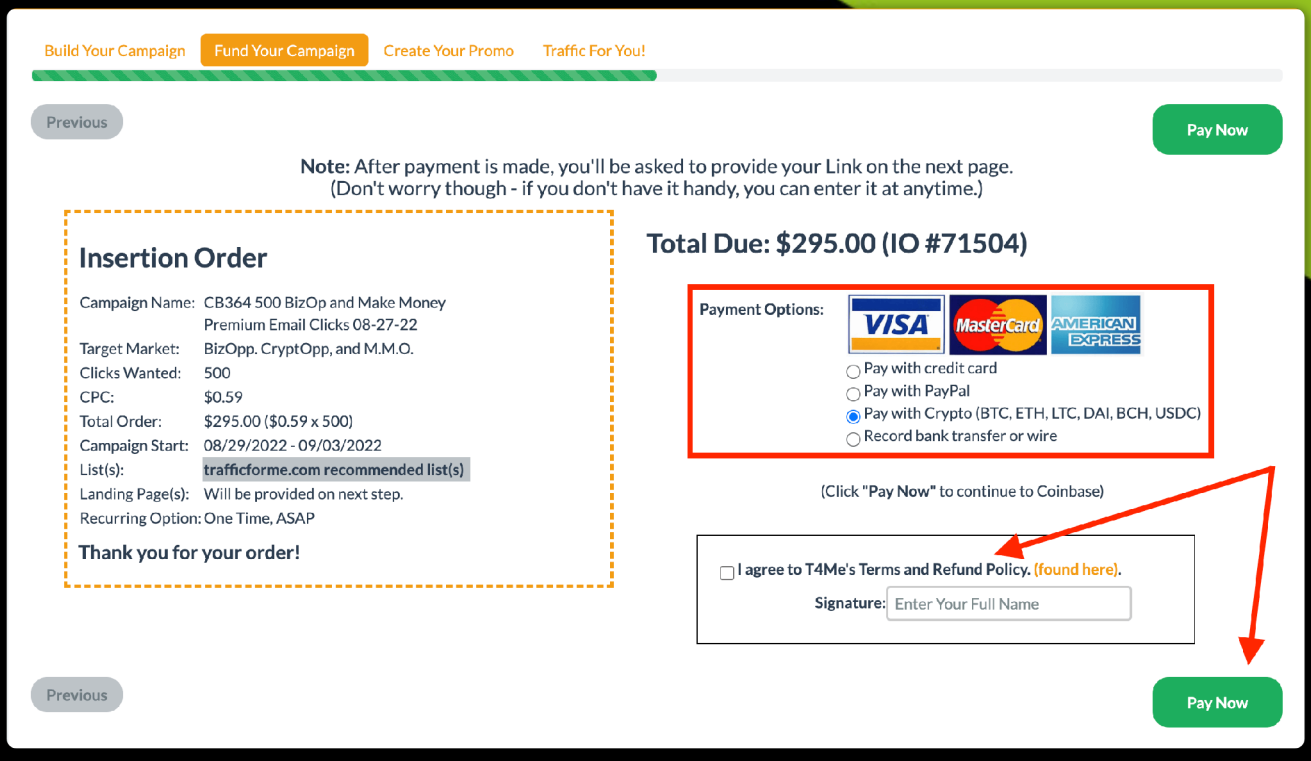

4. Select traffic package size

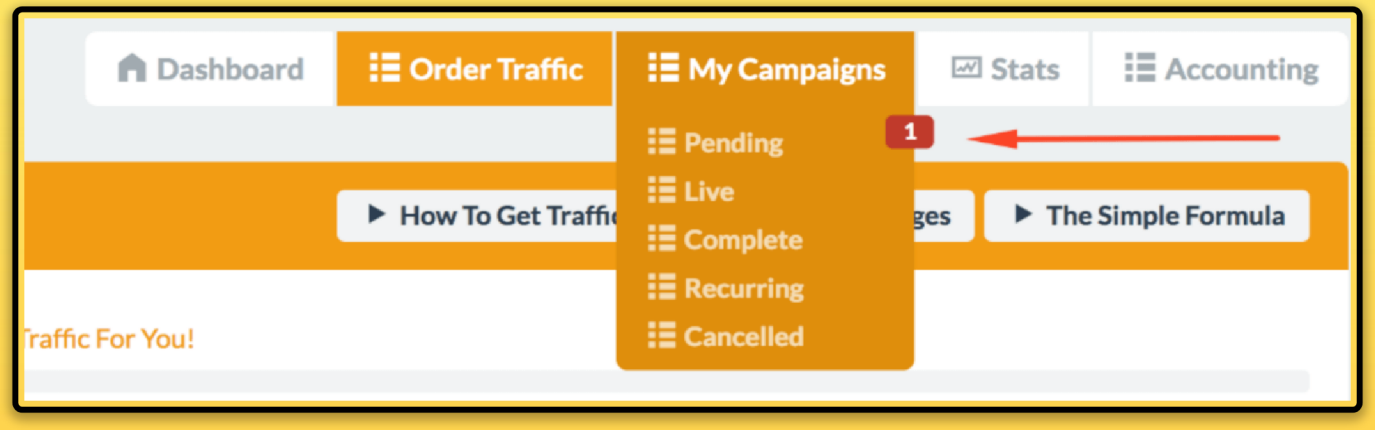

5. Submit your order by clicking the green button

4. Review your order summary and choose your payment option

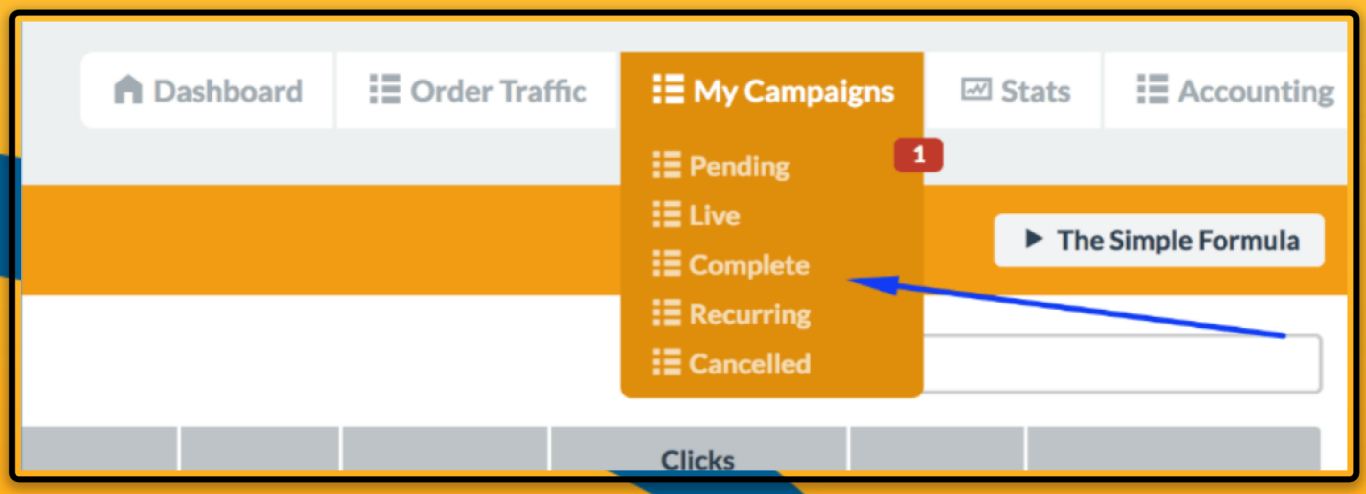

Your campaign will appear in the **campaign dashboard** once you have completed your order.

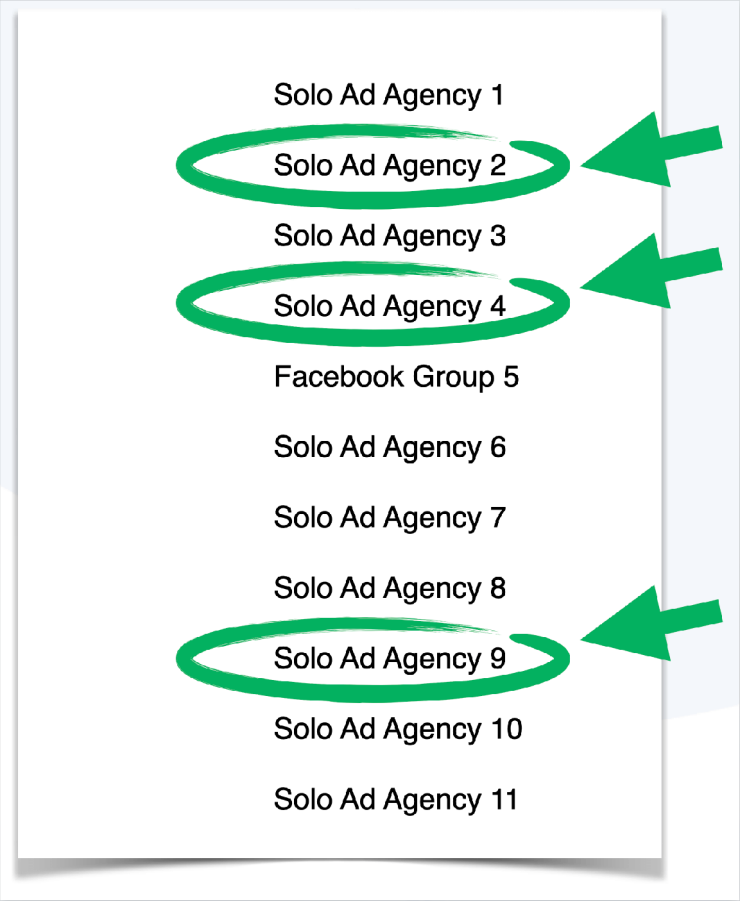

Traffic usually starts within 24-48 hours

When the run is over, you can view the **campaign stats here:**

Now, I know you might be thinking...

"Holy crap! I'm going to join every solo ad marketplace out there related to my business!"

I don't recommend it. You'll see much better & faster results if you narrow your focus and invest all your energy into a select few.

So, whittle down your list and **choose the top 3 solo ad agencies** you want to work with.

Where To From Here?

I've given you everything you need to know to build a wildly profitable commission-generating system. I gave you my sales funnel secrets, my traffic secrets, and even my super affiliate secrets.

Method or not the key is to get started

The key is to get started. It doesn't matter if you start by picking an offer to promote, building an info product or negotiating traffic deals with solo ad sellers. **Action beats meditation**

Become A Farmer...

Not A Nomad.

Nomads are typically searching for the "quick win" and will sacrifice long-term gain in exchange for immediate gratification.

On the other hand, farmers are patient individuals that plant seeds now... knowing they will come to fruition in the future.

If your goal is a consistent and robust source of new customers from social media, it's time you started adapting the "farmer" philosophy.
